RECRUITING THE RIGHT WAY

As well as supporting the NHS with business-as-usual requirements, we have vast experience of supporting various projects including transformation and financial recovery, IT and EPR projects, mergers, recruitment and retention, and service improvement. We understand the challenges and the day-to-day demands faced by the healthcare workforce and provide a tried and trusted response that is approved, regulated and risk-free, meaning any requirement we work on is done the right way and in line with NHS Employers and NHS England guidance.

DELIVERING THE BEST TALENT

We have an enviable talent pool of Band 4 to VSM contract and interim staff. We use new AI and automation technology to interact with leading UK job boards and social platforms, and our resourcing teams are proactively registering new contractors across the UK. Our commitment to diversity and inclusion is constantly reinforced through training, outreach partnerships and debiasing technology, bringing breadth and depth to your longlists.
