

EMPOWERING EMPLOYMENT INITIATIVE

Our social value employment programme

Our partnership programme breaks down barriers to the workplace by providing key employability skills.

We believe in employment for all, and our initiative shares our experience with people who do not have easy access to support or training in their job search. We work with our clients to design and deliver courses and workshops tailored to their objectives and the demographic of their patrons.

“ Venn Group’s years of **expertise** in the recruitment market has been invaluable to our clients. The webinars had a **significant impact**”

“Your Future, Your Ambition were delighted to have Venn Group facilitate workshops with young people from diverse backgrounds at our recent STEAM career event. Their sessions on CV writing and interview skills were both inspiring and engaging. The young people who took part asked lots of questions and the expertise of the team added real value to our event. We look forward to working with Venn Group in the near future.
